DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1-10, drawn to a process of making a cream composition, classified in class 426, subclass 580.
- II. Claim 10, drawn to a cream composition comprising texturizing agents, aromatic products and salt with a water activity of 0.8 to 0.9, classified in class 426, subclass 580.
- III. Claim 12, drawn to an aerated cream composition, classified in class 426, subclass 570.
- IV. Claim 13-25, drawn to a cream composition, classified in class 426, subclass 580.

Inventions I and II/III are related as process of making and products made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the products of inventions II and III could be made by a materially different process than the process of invention I.

Inventions II and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are the cream composition of invention II

comprising texturing agents, aromatic products, salt and a particular water activity. The cream product of invention IV does not have any one of these particular features.

Inventions II and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are the cream composition of invention II comprising texturing agents, aromatic products, salt and a particular water activity. The cream product of invention IV does not have any one of these particular features.

Inventions III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are the aerated cream composition of invention III comprising texturing agents, aromatic products, salt and a particular water activity. The cream product of invention IV does not require any one of these particular features.

Inventions I and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are a method of producing a cream composition comprising texturing agents, aromatic products, salt and a particular water activity. The product of invention IV does not require any one of these particular features.

Art Unit: 1761

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Paul Bietce on March 1, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Madsen whose telephone number is (703)305-0068. The examiner can normally be reached on 6:30AM-4:00PM, Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on (703)308-3959.
